Allowable Subject Matter

Claims 1-5, 7-8, 10-22, 24-30 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1-5, 7-8, 10-16 recite, "an embedded stripline resonant transmission line sensor having one or more resonant frequencies, the transmission line sensor including first and second conductive substrates, a fixed dielectric substrate having at least a first surface and a second surface, a sensor conductor coupled to at least one of the first and second surfaces, and a moveable dielectric at least partially surrounding the sensor conductor, the movable dielectric including a first moveable dielectric substrate disposed between the first conductive substrate and the fixed dielectric substrate first surface, a second movable dielectric substrate disposed between the second conductive substrate and the fixed dielectric substrate second surface". This feature, in combination with the remaining claimed structure, avoids the prior art of record.

Claims 20-22 and 24-27 recite, "a movable dielectric disposed between the first conductive substrate and the sensor conductor, the movable dielectric configured to receive a drive force and, upon receipt thereof, to move relative to the sensor conductor, wherein the moveable dielectric comprises: a first moveable dielectric substrate disposed between the first conductive substrate and the sensor conductor; and a second moveable dielectric substrate coupled to the first moveable dielectric substrate and disposed between the second conductive substrate and the sensor substrate second surface". This feature, in combination with the remaining claimed structure, avoids the prior art of record.

Art Unit: 2863

Claims 28-30 recite, "adjusting the reference drive signal frequency to substantially match a resonant frequency of the resonant transmission line reference section". This feature, in combination with the remaining claimed structure, avoids the prior art of record.

The reasons for allowance of claims 17-19 are as indicated in the Office Action dated 12-15-2005.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
